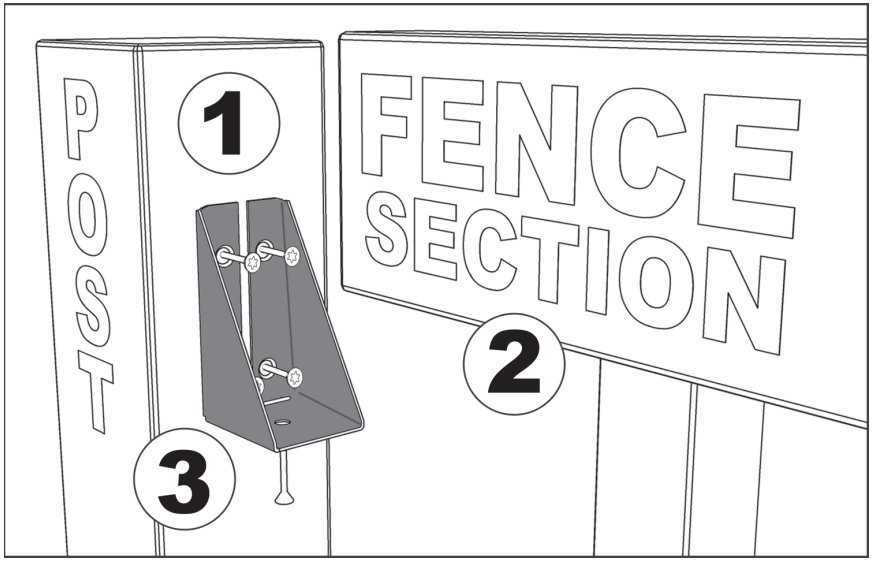
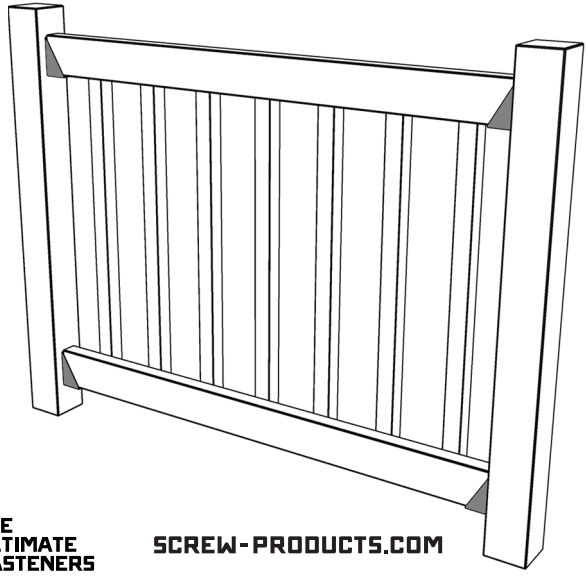
RailLok® Installation Instructions



1. Install (4) brackets to posts using supplied screws.
2. Set fence section within brackets.
3. Secure fence section with screw through bottom of brackets.



RailLok® Rail sectionbrackets provide a strong, reliable railing to post connection. The brackets are built to outlast the service life of the railing. RailLok is available in 316 Stainless Steel and in white or black powder coat finish and includes 5 Star Drive screws.
