

## "C-Deck" Screws

### The Ultimate Composite Deck Screw

C-Deck Composite Deck Screws are for interior and exterior use with wood, composite, and other plastic materials. These screws are specially designed to eliminate the mushrooming and blemishes that can occur on composite materials. They are also an excellent choice for wood decks, where the top threads work to pull down and hold warped lumber and lock the boards together. A multipurpose fastener which meets the challenge regardless of the material used.

### Eliminate 'Mushrooming'!

**Standard Screw**  
Causes 'mushrooming' of excess composite material

**C-Deck Screw**  
Specially-designed head and dual thread pull excess material into hole while countersinking

**Star Drive**  
• Twice the torque of Phillips or square drive

### Checkered Head (SS Only)

- Reduces reflections
- Holds paint better
- Helps screw head blend with composite materials

### Type 17 Point On Stainless Steel Version

- Reduces need for pre-drilling
- Cuts through composite material on first rotation
- Starts quickly

### Coarse Threads

- Deep, wide & sharp threads cut cleanly & easily with maximum holding power

### Tapered Threads

- Grab excess material and pull it down

### Specially-Designed Screw Head

- Prevents 'mushrooming' of excess material
- Pulls excess material into hole while countersinking
- Prevents spin-out

### "C-Deck" Color-Coated

Durable ACQ Compatible coating provides corrosion resistance and gives a professional appearance. Choice of Tan, Red, Brown or Gray.

#9 x 2 1/2" & #9 x 3" lengths

Compatible with pressure treated lumber

### "C-Deck" Stainless Steel Screws

For the best corrosion resistance when applying composite materials to chemically-treated wood products. Grade 305 Stainless Steel.

#10 x 2 1/2" & #10 x 3" lengths

Compatible with pressure treated lumber

*Stainless steel fasteners will outperform any coated fastener in corrosive conditions*

### "C-Deck" Colored-Head Stainless Steel Screws

Combines the best corrosion resistance with a colored head for a professional appearance. Grade 305 Stainless Steel. Choice of Tan, Red or Gray colored head.

#10 x 2 1/2" & #10 x 3" lengths

Compatible with pressure treated lumber

*Stainless steel fasteners will outperform any coated fastener in corrosive conditions*

### Available Packaging:

350 Ct.  
**Clear Plastic Jars**  
with screw-on lids

**Bulk Cartons**
