

# SCREW PRODUCTS INC.

## Guarantee

---

*The SKTII coating on Screw Products, Inc.'s coated fasteners has been designed to protect against the corrosive qualities of chemically pressure treated lumber such as ACQ, CCA etc. This is a proprietary coating that has withstood 1200 hours of salt spray testing, thus, we have not encountered any failures to date.*

*The E-Coating on Screw Products, Inc.'s E-coated fasteners has been designed to protect against the corrosive qualities of chemically pressure treated lumber such as ACQ, CCA etc. This is a proprietary coating that has withstood 1,000 hours of salt spray testing, thus, we have not encountered any failures to date.*

*Thus, we offer the following guarantee:*

*Screw Products, Inc. will replace any corroded fasteners and provide a fair means of remedy for the re-installation of defective fasteners for the life of the project.\**

**This guarantee, however, does not cover the following conditions:**

- 1) Improper installation of fastener resulting in the removal of the coating.**
- 2) Not countersinking the head just below flush to eliminate excess wear.**
- 3) Use of these fasteners with dissimilar metals which may accelerate corrosion (stainless steel/galvanized).**
- 4) Use of these fasteners within 1 mile of salt water contact. (Our Stainless Steel is recommended in this case.)**
