What's In The Jar?

- 100 Fascia Screws
- 2" TX20 Star Drive bit
- 6.5mm Drill Bit
- Pure easy installation satisfaction!

NEW!

PATENT PENDING

While other brands cut into the surface of the fascia boards often leaving shavings behind exposed, our solution leaves a cleaner finished surface and the hole sealed off completely.

Easily secure your Composite or PVC Fascia (with popular board matched head colors!). Our system helps provide a beautiful, durable connection for years to come! Each jar contains everything you need for installation. No additional custom tools are required!

316 Stainless Steel offers a corrosion free connection, thereby eliminating staining over time. Also, 316 Stainless Steel offers flexibility to adapt to the movement the fascia boards will experience due to temperature fluctuations.
