STAINLESS STEEL

FINISH HEAD SCREW

PICO™

STAINLESS STEEL

Tiny Finish Head

The tiny finishwork head has been specifically engineered to be almost invisible when mounted without compromising strength of the head or screw. The head size fits with concealed mounting tools.

Reverse Threads

The reverse threads helps to pull down debris and works perfectly together with the small head size to create a clean finish.

Drill Cut Tip

Engineered to cut wood fibers more efficiently, this design reduces splitting, especially near board edges. The sharp edges of the tip slices through wood fibers while minimizing the driving torque needed to engage the wood.

Also For Concealed Fastening

For jobs where concealing the fastener is important, we have engineered these screws to fit most concealed fastening tools.

The advanced Finish Head Wood Screw
for typical very high-corrosive environments.
Great for any size job or project.

Available in 1lb, 5lb and 1/4 Keg
All Packaging Includes Drive Bit!

THE ULTIMATE FASTENERS

STAINLESS STEEL

FINISH HEAD SCREW

The PICO™ Finish Screw is a slim fastener, yet engineered for good holding power. Our extra sharp Drill Cut Tip cuts wood fibers and reduces splitting of board edges. The Self-Tapping Thread cuts effectively through materials such as wood, plastic and sheet metal. The wide threads provides a strong connection while the reverse threads helps pull down fibers. The tiny head stays out of sight for a clean, professional finish. Fits with most concealed mounting tools.

TOUGH ENVIRONMENTS

Stainless Steel AISI 316 is code compliant for use in marine environments with saltwater splash, airborne salts, and areas with de-icing salts.

¹ **Stainless Steel** Our stainless steel is either AISI 302, 304 or 305 and is code compliant for use with ground contact pressure treated lumber in wet environments such as near freshwater lakes and rivers, and for use in redwood and cedar.

Common Applications

- Commercial & residential
- For tough environments
- Finish & trim work
- Hidden decking
- Framing
- Windows and doors
- Remodeling and repair
- Cabinetry
- And much more!

Sizes Available: #8 x 1-5/8" to #8 x 3

General Info		
Type of Screw	Finish Head Wood Screw	
Material	Stainless Steel ¹ & 316 Stainless	
Head Style	Countersinking TX15 Star Drive	
Point Type	Drill Cut	
Construction		#8
Head diameter (inch)		0.189
Minor thread diameter		0.106
Major thread diameter		0.165
Shaft diameter		0.122
Drive Size		TX15
Product Range		Approx Count per 1lb
Length	Thread	#8
1-5/8"	1"	187
2"	1-1/4"	158
2-1/2"	1-1/2"	119
3"	1-1/2"	104
Also Available in 316 Stainless Steel
