EXTERIOR FINISH HEAD SCREW

PICO™

DrJ TER 2212-01
Technical Evaluation Report
available now at
www.screw-products.com

Tiny Finish Head
The tiny finishwork head has been specifically engineered to be almost invisible when installed without compromising strength of the head or screw. The head size fits with concealed mounting tools.

Reverse Threads
The reverse threads helps to pull down debris and works perfectly together with the small head size to create a clean finish.

Drill Cut Tip
Engineered to cut wood fibers more efficiently, this design reduces splitting, especially near board edges. The sharp edges of the tip slices through wood fibers while minimizing the driving torque needed to engage the wood.

Also For Concealed Fastening
For jobs where concealing the fastener is important, we have engineered these screws to fit most concealed fastening tools.

The advanced Finish Head Wood Screw with **ZYTEC™ GX** corrosion protection coating for exterior environments.
Great for any size job or project.

Available in 1lb, 5lb and 1/4 Keg
All Packaging Includes Drive Bit!

THE ULTIMATE FASTENERS

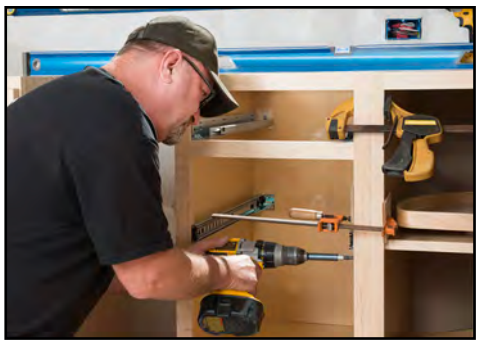
EXTERIOR FINISH HEAD SCREW

The PICO™ Finish Screw is a slim fastener, yet engineered for good holding power. Our extra sharp Drill Cut Tip cuts wood fibers and reduces splitting of board edges. The Self-Tapping Thread cuts effectively through materials such as wood, plastic and sheet metal. The wide threads provides a strong connection while the reverse threads helps pull down fibers. The tiny head stays out of sight for a clean, professional finish. Fits with most concealed mounting tools.

STAR DRIVE



TX15 EXT

TYPICAL EXTERIOR USE

ZYTEC™ GX Coating: Tested and recognized for use in most ground contact pressure treated lumber for general exterior construction as described by the American Wood Protection Association (AWPA) U1 UC4A or below. Always follow timber manufacturer's recommendations for fasteners.

Common Applications

- Commercial & residential
- Finish & trim work
- Hidden decking
- Framing
- Windows and doors
- Remodeling and repair
- Cabinetry
- And Much more!

Sizes Available: #8 x 1-5/8" to #8 x 3

General Info	
Type of Screw	Finish Head Wood Screw
Material	Heat Treated, Hardened Steel
Coating	ZYTEC™ GX
Head Style	Countersinking TX15 Star Drive
Point Type	Drill Cut

Construction	#8
Head diameter (inch)	0.201
Minor thread diameter	0.106
Major thread diameter	0.165
Shaft diameter	0.122
Drive Size	TX15

Product Range		Approx Count per 1lb
Length	Thread	#8
1-5/8"	1"	206
2"	1-1/4"	164
2-1/2"	1-1/2"	130
3"	1-1/2"	109
Also Available with White Painted Head
