## Introducing CENIII

# THE ULTIMATE FASTENERS

TRIM HEAD SCREW

### EPIC

#### STAINLESS STEEL

#### **Advanced Trim Head**

The Epic Trim Head is slightly larger in diameter than industry standards. This combined with the patent pending Turbine Ribs give maximum holding power while leaving a clean, professional finish.

#### Turbine Ribs™

(patent pending) Turbine Ribs cut quickly into the wood, leaving a professional, clean finish with maximum wood contact. The cup shaped, countersinking head provides increased holding power and reduced risk of splitting.

#### Twin Blades™

(patent pending) This set of knurls cuts fast to dramatically reduce friction and heat on the shank, while reducing load on the drill. They also provide better performance by removing debris faster than a standard fastener's knurl.

#### **Fast Start Tip**

With sharp threads all the way to the tip, the fastener has an immediate grip for a fast start. The inset thread cut drastically reduces the splitting effect and minimizes the driving torque needed to engage the wood.

This advanced, Trim Head Wood Screw for typical very high-corrosive environments. Use them on any size job or project. Great for decks, docks, fencing and railings!

Available in 1lb, 5lb and 1/4 Keg All Packaging Includes Drive Bit!

#### WWW.SCREW-PRODUCTS.COM

9401 Bujacich Rd. Bldg 1B, Gig Harbor, WA 98332 Toll-Free 1-877-844-8880 THE ULTIMATE FASTENERS

The EPIC™ Trim Head Screw is designed to take wood screws to an entire new level (patent pending). Our extra sharp Fast Start Tip saves you time onsite and our Twin Blades outperform the competitor's knurls. The Turbine Ribs ensure an incredibly clean finish. Its cup shaped, countersinking head provides unparalleled holding power and less risk of splitting. The small trim head provides a clean, professional connection.

#### TOUGH ENVIRONMENTS

**Stainless Steel:** Outdoor Coastal areas, surfaces with salt exposure, ground contact treated lumber, shipyards, medium polluted industrial areas, chemical plants, etc. Always follow timber manufacturer's recommendations for fasteners.

#### **Common Applications**

- Commercial & residential
- General indoor and outdoor jobs
- Trim & Cabinetry
- Interior and exterior framing
- Windows and doors
- Remodeling and repair
- Chlorinated areas
- Hot tubs
- Swimming pools
- And Much more!

#### Sizes Available: #9 x 1-5/8" to #9 x 4"
