STAINLESS STEEL

FINISH HEAD SCREW

PICO™

STAINLESS STEEL

Tiny Finish Head

The tiny finishwork head has been specifically engineered to be almost invisible when mounted without compromising strength of the head or screw. The head size fits with concealed mounting tools.

Reverse Threads

The reverse threads helps to pull down debris and works perfectly together with the small head size to create a clean finish.

Fast Start Tip

With sharp threads all the way to the tip, the fastener has an immediate grip for a fast start. The inset thread cut drastically reduces the splitting effect and minimizes the driving torque needed to engage the wood.

Also For Concealed Fastening

For jobs where concealing the fastener is important, we have engineered these screws to fit most concealed fastening tools.

This advanced, Finish Head Wood Screw is for typical very high-corrosive environments. Great for any size job or project.

Available in 1lb, 5lb and 1/4 Keg
All Packaging Includes Drive Bit!

THE ULTIMATE FASTENERS

STAINLESS STEEL

FINISH HEAD SCREW

The PICO™ Finish Screw is a slim fastener, yet engineered for good holding power. Our extra sharp Fast Start Tip grips quickly into the wood and saves you time on site. The wide threads provides a strong connection while the reverse threads helps pull down fibers. The tiny head stays out of sight for a clean, professional finish. Fits with most concealed mounting tools.

TOUGH ENVIRONMENTS

Stainless Steel: Outdoor Coastal areas, surfaces with salt exposure, ground contact treated lumber, shipyards, medium polluted industrial areas, chemical plants, etc. Always follow timber manufacturer's recommendations for fasteners.

Common Applications

- Commercial & residential
- For tough environments
- Finish & trim work
- Hidden decking
- Interior and exterior framing
- Windows and doors
- Remodeling and repair
- Cabinetry
- Chlorinated areas
- Swimming pools & Hot Tubs
- And Much more!

Sizes Available: #8 x 1-5/8" to #8 x 3
