STAINLESS STEEL

TRIM HEAD SCREW

STAINLESS STEEL

Advanced Trim Head

The Epic Trim Head is slightly larger in diameter than industry standards. This combined with the patented ⁽¹⁾ Turbine Ribs give maximum holding power while leaving a clean, professional finish.

Turbine Ribs™

Patented ⁽¹⁾ Turbine Ribs cut quickly into the wood, leaving a professional, clean finish with maximum wood contact. The cup shaped, countersinking head provides increased holding power and reduced risk of splitting.

Twin Blades™

Patented ⁽²⁾ Twin Blades knurls cut fast to dramatically reduce friction and heat on the shank, while reducing load on the drill. They also provide better performance by removing debris faster than a standard fastener's knurl.

Fast Start Tip

With sharp threads all the way to the tip, the fastener has an immediate grip for a fast start. The inset thread cut drastically reduces the splitting effect and minimizes the driving torque needed to engage the wood.

The advanced Trim Head Wood Screw for typical very high-corrosive environments.
Use them on any size job or project.
Great for decks, docks, fencing and railings!

Available in 1lb, 5lb and 1/4 Keg
All Packaging Includes Drive Bit!

THE ULTIMATE FASTENERS

STAINLESS STEEL

TRIM HEAD SCREW

The EPIC™ Trim Head Screw is designed to take wood screws to an entire new level. Our extra sharp Fast Start Tip saves you time onsite and our Twin Blades™ outperform the competitor's knurls. The Self-Tapping Thread cuts effectively through materials such as wood, plastic and sheet metal. The Turbine Ribs™ ensure an incredibly clean finish. Its cup shaped, countersinking head provides unparalleled holding power and less risk of splitting. The small trim head provides a clean, professional connection.

TOUGH ENVIRONMENTS

Stainless Steel AISI 316 is code compliant for use in marine environments with saltwater splash, airborne salts, and areas with de-icing salts.

¹ **Stainless Steel** Our stainless steel is either AISI 302, 304 or 305 and is code compliant for use with ground contact pressure treated lumber in wet environments such as near freshwater lakes and rivers, and for use in redwood and cedar.

Common Applications

- Commercial & residential
- General indoor and outdoor jobs
- Trim & Cabinetry
- Framing
- Windows and doors
- Remodeling and repair
- And much more!

Sizes Available: #9 x 1-5/8" to #9 x 4"

General Info		
Type of Screw	Trim Head Wood Screw	
Material	Stainless Steel ¹ & 316 Stainless	
Head Style	Countersinking TX20 Star Drive	
Point Type	Modified Type 17	
Construction		#9
Head diameter (inch)	0.260	
Minor thread diameter	0.122	
Major thread diameter	0.183	
Shaft diameter	0.136	
Drive Size	TX20	
Product Range		Approx Count per 1lb
Length	Thread	#9
1-5/8"	1"	148
2"	1-1/4"	119
2-1/2"	1-1/2"	92
3"	1-1/2"	81
4"	2"	60
Also Available in 316 Stainless Steel
